

1. Die-cut the shape out of foam and glue this to your project

2. Die-cut the strips of paper and cut them to the correct length.

3. Roll them up using the Filling that pen and put them in the ruler for the right size.

4. Glue the end. Dip it, using tweezers, in the glue and put them in the right place.

5. You can fill them with different ingredients. Too many to show here.
