## Kaleidoscopecard with Multi Frame Die MFD117

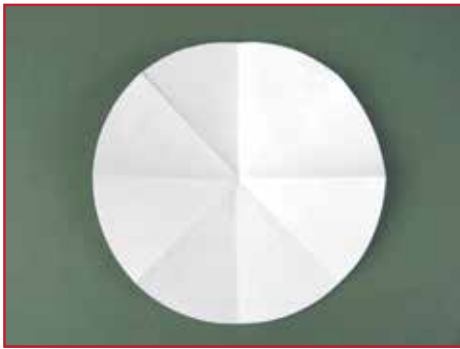

Die-cut the circle out of cardstock. Die-cut the helpcircle (1 size smaller) out of copy paper.

Die-cut the Die out of your card.

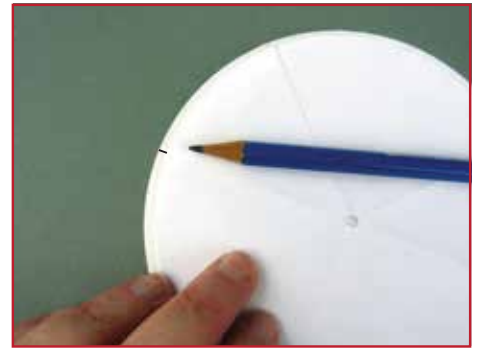

Die-cut a small part of the small circle out of the edge of your card.

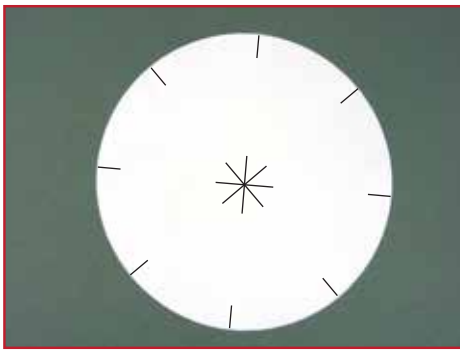

Fold the helpcircle out of copy paper one time. After that fold it again and again so you get 8 equal parts.

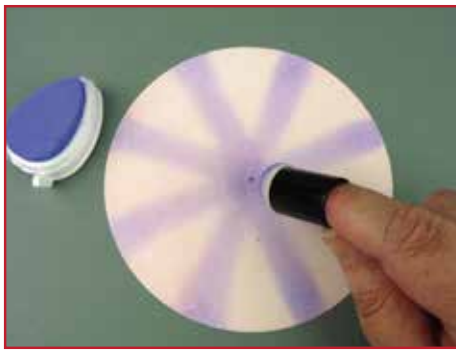

Place the circles on top of each other. Pierce a hole in the center of both circles.

Put pencil lines on the big circles at the fold of the copy paper helpcircle.

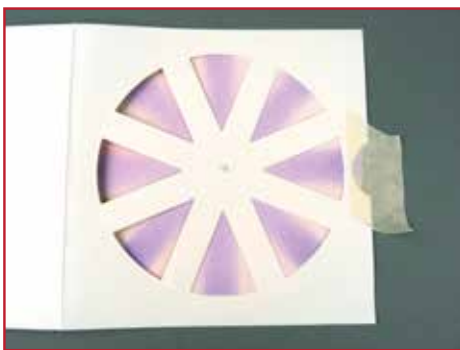

Draw guide lines in the center and on the edge (see example).

Ink the circle with a light color. After that make stripes with another color and a fingertip dauber.

Pierce a hole in the center of your card. Use the helpcircle as a guide.

Attach the colored circle to your card with a brad. Attach the circle with a piece of easy removable tape.

Stamp the text in the holes. Remove the tape. When you turn your circle the text will disappear.

The result!
